

TechNova X15 Laptop - Product Manual

Overview

The TechNova X15 is a 15.6-inch business laptop designed for productivity. Features include Intel Core processor, 16GB RAM, 512GB SSD, Wi-Fi 6, Bluetooth 5.3, fingerprint reader, and USB-C charging.

Getting Started

Charge the laptop before first use. Press the power button for 2 seconds. Complete Windows setup and connect to Wi-Fi.

Troubleshooting

If the laptop does not power on, charge for 30 minutes and try again. Contact support if the issue continues.
